

i-LINK Workshop 2018

June 26th, 10h

Sala de Actos del Instituto de Química Avanzada de Cataluña

Speakers:

- **Toyoko Imae (National Taiwan University of Science and Technology)**
“Gels and films of cellulose nanofiber composites”
- **Orlando Rojas (Aalto University, Finland)**
“Biobased polymers: material bank for the development of structure, color and function”
- **Eva Pellicer (Universitat Autònoma de Barcelona)**
“Porous materials for a sustainable world: electrocatalysis, water remediation and beyond”

Organized by the group of Colloid and Interfacial Chemistry (IQAC) and supported by the project “Cellulose-based hybrid nanomaterials for energy applications”
